## Legal Research Methods in the U.S. & Europe Second Edition

by J. Paul Lomio & Henrik Spang-Hanssen

This book is the first legal research guide to consider the internationalization and globalization in both the new law school curriculums and the changing practice of law.

Lawyers engaged in U.S./European transborder transactions need to know how to find, understand and compare applicable foreign and international laws. This book bridges the oceanic divide.

Chapter 4 is revised for the second edition and includes a special section on the EU Treaty of Lisbon.

In addition, the second edition incorporates additional research tips and also includes an instructor's manual to accompany chapters 3 through 7.

*- This book covers the subject of legal research methods in the U.S. and Europe in a depth and detail not found in other works. It could be used as a treatise on the subject or a textbook for a foreign and international legal research class... I highly recommend this title to any professor or student of foreign and international legal research and for any law library collection.*

Professor of Law Library Science, Oklahoma City University Law Library, Lee F. Peoples

*- The book abounds with many useful asides regarding the similarities and differences of common and Civil law, which is useful to scholars and practitioners alike on both sides of the Atlantic. Legal Research Methods in the U.S. and Europe has broken new ground by offering a concise guide to transatlantic legal research in a single volume. It is clear that as the practice of law globalizes, so too must legal education, specifically legal research methods.*

MPhil, Cambridge (U.K.) and Stanford Law Student, Scott J. Shackelford,

*J. Paul Lomio* is Library Director and Lecturer in Law at Stanford Law School. He holds both a U.S. Juris Doctor degree and an LL.M. degree in Law and Marine Affairs as well as a Masters of Library and Information Science. He was a member of the Gonzaga Law Review and has published several law review articles. This is his first book.  
See [www.law.stanford.edu/library](http://www.law.stanford.edu/library)

*Henrik Spang-Hanssen* is a Danish Supreme Court Attorney-at-law and senior researcher, including five years in the United States. He holds masters degrees in law from Copenhagen University in Denmark and Santa Clara University in California and is regarded by many as an expert on the intersection of public international law and public international computer networks.
